A MORMON PROTEST. PROFESSIONS OF LOYALTY AND COMPLAINTS

AGAINST GOVERNOR MURRAY. WASHINGTON, March 27 .- In the Senate today Mr. Vest presented a memorial from the Legislative Assembly of Utah, protesting against the passage of measures now pending before Congress or any measure affecting the interests of that Territory, without full investigation by a Congressional Committee. The memorialists state that they were elected by the people of the Territory under the provisions of the Edmunds bill, and that they have made provision for the filling of the registration and election offices of the Territory as authorized by the law, but that their action has been rendered wold by the refusal of the Governor to sign their bill, and that in conse quence of that refusal one object of the Edmunds bill has been frustrated and the interests of the people of Utah have been jeop rulized. They also state that other bills needful to the progress of the Territory have been notified by the Governor. They say that measures have been introduced in Congress looking to extreme, and, as they consider, harsh and unjust action toward the people of the Territory, and that these measures have been prompted by untruthful statements made to Congress, and by misunderstanding of the facts, and of the political situa-

misunderstanding of the facts, and of the political situation in the Territory.

They enter into a review of the history of the settlement of the Territory of Utah, and give prominence to circumstances intended to illustrate the loyalty of the people of Utah to the Federal Government and their services in aiding in the development of the country. They speak of the disadvantages under which the Territory has labored because of the dishonesty or incompetency of federal officials sent to Utah, and devote much space to criticism of Governor Murray, of whom they say: "From the first be has allied himself with a clique of adventurers, busy in stirring up mischief and circulating false rumors for the purpose of provoking ulterior measures that may result in their possible advantage. With nothing to less and everything to gain, any turn of the wheel, so long as it be in the direction of a revolution may bring up something to their pecuniary advantage. He has taken the stump in their necessipality, insulted peacable and respected citizens oy untrue allegations and arrogated to himself extraordinary prerogatives."

The memorial was referred to the Committee on Territories.

SPEAKER STONEY APOLOGIZES. THE DEMOCRATS ASHAMED OF THEIR CONDUCT WED-

NESDAY-MR. FISH MAGNANIMOUS. (FROM THE REGULAR CORRESPONDENT OF THE TRIBUNE.) TRENTON, March 27 .- The Democrats of the

House did penance this morning for their action yesterday, the Speaker leading the chorus of contrition. There was not a member of the majority, excepting little Mr. Neighbour, who did not express regret at the caucus de-elsion and anger at the position in which the party had been placed by the Speaker and Neighbour. When the House met Mr. Cole (Rep.) arose to amend the minutes. He claimed that they falled to state that Mr. Fish had made a point of order, and that they were manifestly insorrect. After some brief debate, Mr. McLaughlin moved to lay the matter over until afternoon. The motion was put and deciared carried by the Speaker, the Republicans generally voting no. Speaker Stoney then stiffened and

generally voting no. Speaker Staney then stitled and posed himself, and said:

Gentlemen of the House: I desire to state to the members that as to the occurrence vesterday no one is more pained than myself, particularly as it affected relations with one of of the members which have always been of the pleasantest character. I would suggest as a proper way of disposing of the muttar, that all that part of the minutes relating to the vote of censure and so forth should be expunged from the minutes of the House.

Mr. Flyon (Dem.) jumped up and said: "I make that motion W. Speaker."

Dr. Chattle, of Monmouth County (Dem.), said : " If the member from Passaic [Mr. Ftynn] will excuse me I should like to interpose right here. I am about ending a pleasant legislative career, and I would be sorry to go out feeling that I had been guilty of any unkindness or discourtesy. I was the unwitting and unwilling cause of all the trouble yesterday, and I think the motion in this matter ought to come from me, and I hope the resoluton I am about to offer will be passed unanimously. " Dr.

Chattlethen offered the following:

Resolved. That so much of the record as refers to the resolutions of the Democratic caseus in reference to the action of P. S. Fish, of Essex, and all occurrences when led thereto, be and the same are hereby expunged from

Assemblyman Fish obtained the floor and said : " This action is very grateful to me. I say to you, Mr. Speaker, as I say to the members of the House, that I am sincerely gratified with the turn this affair has taken, and I extend to you all the same kindly feeling that has marked our evious intercourse." [Appliane.] The resolution was then put and carried unanimously

The Democratic surrender was absolute, and the Repub-The Democratic surrender was absolute, and the Republican minority could hardly restrain an exhitation which would have been simply eruel if publicly manifested. The lusiness of the House then proceeded quietly, and a significant feature of the proceedings was the careful lenderness with which the Republican members were subsequently treated by the Speaker. It is believed that the lesson faucht the Speaker and the majority by the Republican minerity will last throughout the remainder of the assisting. The contest was for the rights and privileges of members recardless to political association, and it as won by the admirable management of the Republican leaders, successfully carried out by the individual members.

The Senate Republicans have agreed to call up and defeat the bill to create a separate department of banks and insurance. The Senate adjourned until Mon-day, without acting upon the Corpe ation Tax bills, day, without acting upon the Corpe ation Tax bills, opinion prevailing that the bills would be endangered by hasty action. They will probably be considered on Tuesday next, and it is harnly possible that a final vote can be reached before the following week. The House actiourned at noon until Monday evening. The bill providing that when a person is injured by a felonious act in one county, and dies in consequence thereof in another county, the person committing the act may be tried in either, was passed. THURSDAY, March 27-P. M. An absence of confirmation of any of the reports and rumors that yesterday influenced the stock speculation was a sort of a boomerang in to-day's market. Anticipations not having been realized, yesterday's buyers were sellers at such prices as could be obtained. The business (263,755 shares) was 20,000 shares less than yesterday. At the opening prices were steady to strong and in some instances higher figures were made; but there was a lack of activity and a feverishness that found vent only in a later decline in values. Erie was the active stock of the day and furnished 43,400 shares toward the total operations; it opened at 224@223s, and afterward, with numerous fluctuations, declined to 2058@2034. Pacific was second in point of Union transactions; it sold up 14 to 7612 and declined to 7514@7538. St. Paul stock was third, with transaction in 21,600 shares, and declined from 88@8818 to 87%. The coal stocks were pressed for sale so that the final figures for Delaware, Lackawanna and Western shows a decline of 11s and that for Reading of 15s per cent. Outside of Erie the trunk line shares were dull, but their final prices show declines of about 12 per cent. Call the general market extremely dull at lower figures and the whole story is told : to which may be added that the closing was weak.

Government bonds were fairly active at steady quotations and the bids for the 3s are 14 per cent higher. The final quotations are as follows:

State bonds were dull and firm. North Carolina special taxes were up 1 per cent at 5. Of city bank stocks there were no sales. The general bond market was somewhat influenced

by the course of the share market, and therefore presents a more or less unsettled condition. The

change, however, generally is only to dulness instead of lower prices. Yet a few of the speculative issues declined sharply. Erie second consols declined from 90½ 90½ to 88%, and West Shore and Buffalo first mortgage gold 5s, with a large business, yielded from 57½ to 58½ 95%. Chesapeake and Ohio firsts, series B, were up ½ at 105, and the currency 6s, after an advance of ½ to 56%, closed unchanged at 55%. Rome, Watertown and Ogdensburg consol 5s were up to 77, but later were offered at 76½. Canada Southern first 5s were steady at 102%. And the currency form of the curr Canada Southern first 5s were steady at 1013s, and St. Louis and Iron Mountain 5s declined 12 to 7612. East Tennessee, Virginia and Georgia consol 5s were up 4 at 75,

some improvement. At Paris French 3 per cents were from 75.70 to 75.85@75.80 franes.

RAHEROAD EARNINGS.

Mr. S. Little, anditor of the New-York, Lake Erie and Western Railroad Company, sends us notice that the foot note which we have attached to the company's monthly report of its business, as follows: "Includes operations of New-York, Pennsylvania and Ohio, and of Chicago and Atlantic railroad," for months since June, 1883, is incorrect and says, "The figures of the Chicago and Atlantic Railroad are not included in the company's statement. We cheerfully make the correction even at this late day, but in justification of the error we must state that till yesterday's report the company's monthly statements have read "of New-York, Lake Erie and Western Railroad and 'leased lines," If the Chicago and Atlantic Railroad is not leased and operated by the New-York, Lake Erie and Western Company and is not under its full control, we and the public have been missed by that company's reports for 1882 and 1883," Fast it seems that the monthly statements of the Erie Company give no information of when the property is making or losing money by the Chicago and Atlantic.

THE PETROLEUM MARKET.

The petroleum speculation awoke to-day finn its long lethargy, and an active business was done at the two exchanges. The total dealings amounted to 13,880,-000 barrels, against a recent average of 6,000,000 barrels and less a day. But the increased movement was made at the expense of a shrinkage in values of over 3 cents per barrel as compared with the final price yester-day. Weakness was developed almost immediately after the opening at 99% cents, and the market dropped below 99 cents. A feeble rally followed, but the steady pouring out of stock earried prices down to 96% ceaus. There was no news from the oil fields of a character likely to cause a break, and while the "bears" may have started cause a oreas, and while the "bears" may have started the selling movement, the depression was the result of "long" sales. Apparently the continued stagnation of the speculation has worn out the patience and the mar-gins of many holders. The market closed active and weak at the lowest point of the day. The range of prices and the total dealings were as follows:
